## Re: NOTICE GRANDFATHERED HEALTH PLAN STATUS

The Board of Trustees of the Southern California Dairy Industry Security Fund believes its coverage is a “grandfathered health plan” under the Patient Protection and Affordable Care Act (the Affordable Care Act). As permitted by the Affordable Care Act, a grandfathered health plan can preserve some features of the basic health coverage that it had in place on March 31, 2010.

Being a grandfathered health plan means that your benefit option under the Plan may not have to include certain consumer provisions of the Affordable Care Act that would otherwise apply. For example:

If you are enrolled in the Kaiser Permanente Medical Plan or the United HealthCare (PacifiCare) Medical Plan you will not be able to access certain preventive health services without any cost sharing or out-of-pocket co-payments. However, all plans (including grandfathered plans like this Plan) must comply with certain other consumer protections in the Affordable Care Act: for example, the elimination of lifetime limits on benefits and coverage for adult children to age 26.

If you have questions about which consumer protections in the Affordable Care Act apply to the benefit options under the Plan, or questions about what could cause your option or the Plan to stop being a grandfathered health plan, please contact the Board of Trustees, which acts as the Plan Administrator. You can call the Administrative Office at (866) 481-5841 or (562) 463-5033, or send questions to:

This website has a table summarizing which consumer protections under the Affordable Care Act do and do not apply to grandfathered health plans.
